### About The Images In This Book

The author generated all of the images in this book by writing original prompts for DALL·E 2, OpenAI's new AI system that can create realistic images and art from a description in natural language.

Upon generating the images, the author curated and arranged the images to their own liking and takes ultimate responsibility for the content of this publication.

All prompts used are listed in the Prompt Appendix at the back of this book.

### About DALL·E 2

DALL·E 2 can create original, realistic images and art from a text description. It can combine concepts, attributes, and styles.

### About The Author

Ben Barry is a visual artist and designer concerned with making the future of humanity the best it can be – for everyone. Based in Portland, Oregon, Ben is the founder of the design studio Nonlinear. Previously, he was the design director for OpenAI, and was one of the first communication designers to join Facebook's team in California.

Special Thanks To

All of the researchers whose work has contributed to making DALL·E 2 possible.

OpenAI (specifically Justin Jay Wang) for granting me beta access to DALL·E 2.

All of the human artists who created the lifetimes of art necessary to train this AI.

Dedicated to

Lieutenant Commander Data

### Author's Note

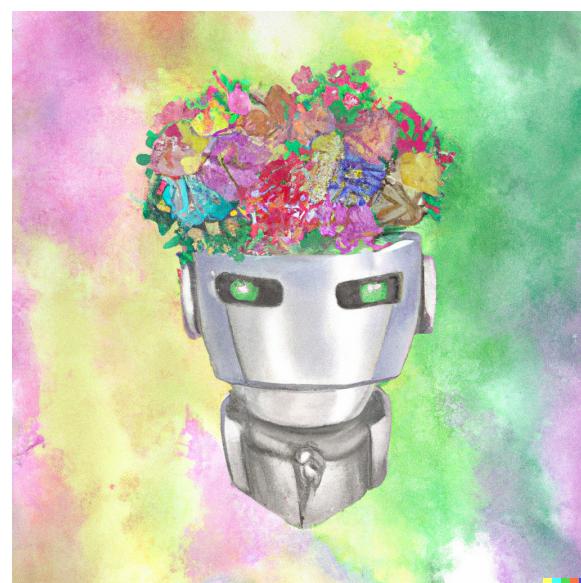

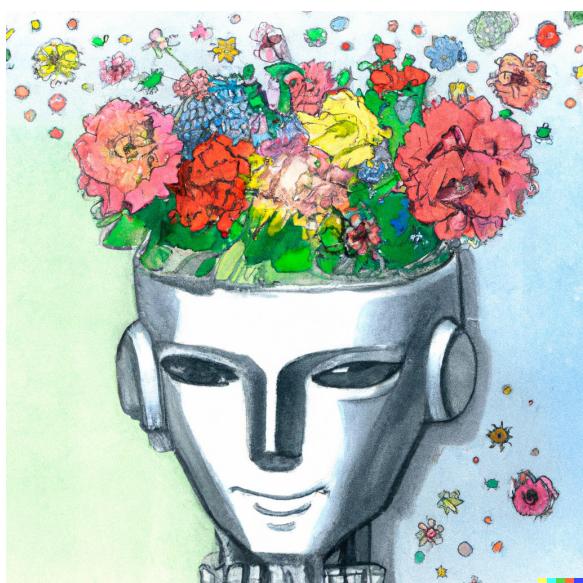

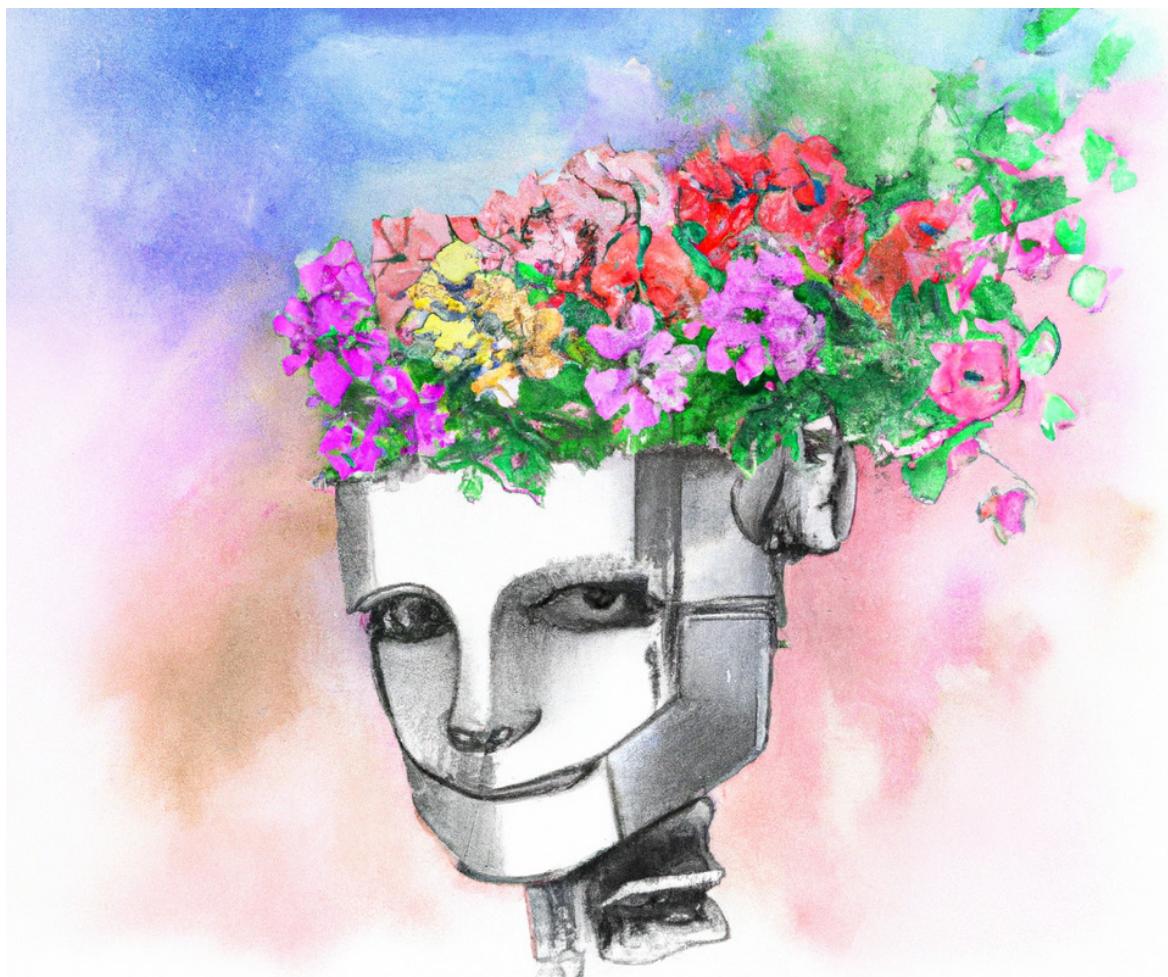

I received beta access to experiment with OpenAI's DALL·E 2 three days ago, and I haven't been able to put it down. The first night I stayed up until 4am just trying to probe the model's understanding and capabilities. It isn't always perfect, but it clearly knows a whole lot. It's unlike any image creation tool I've ever used before, and at times it feels almost magical. I generated thousands of images to create this final selection of 1000, and I feel as though I've barely scratched the surface.

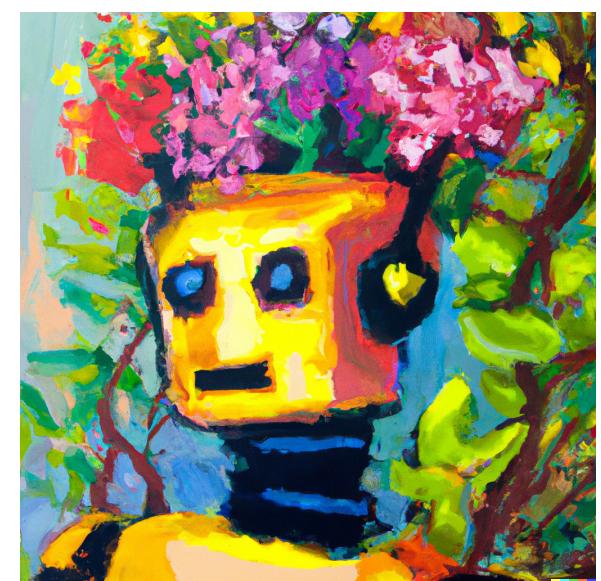

While the model is capable of generating other types of images, I found paintings to be the area where it truly excelled aesthetically. For that reason, I've limited most of my selections to paintings.

I chose the subject matter because I find the idea of an artificial intelligence painting robots to be simultaneously humorous and endearing. I hope you enjoy looking at them as much as I did while I was collaborating with DALL·E 2 to generate them.

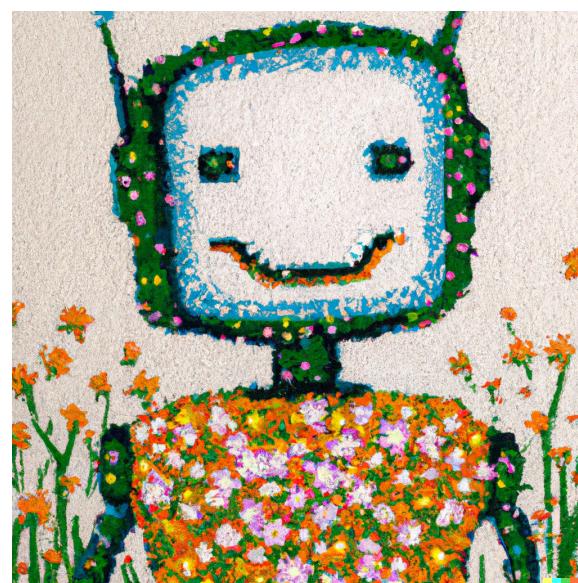

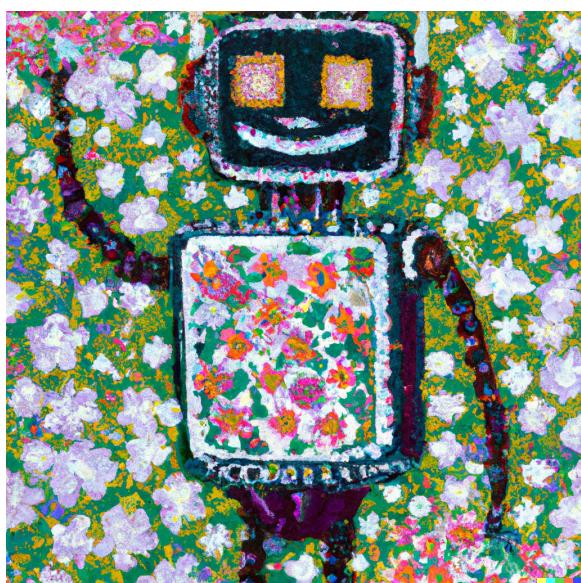

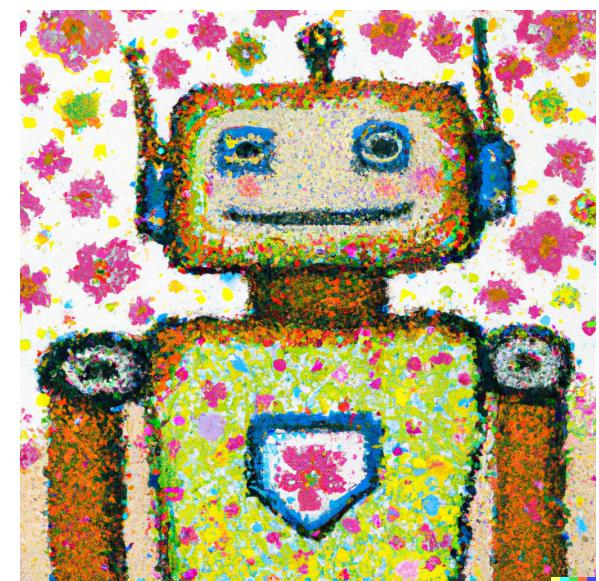

The images are arranged mostly in the order they were generated.

## Prompt Appendix

All of the natural language prompts used to generate the images in this book are listed on the following pages.

The table is organized in order by page number and image number. Each image on a page is numbered from left to right top to bottom.

Some example diagrams of image numbering are shown below.

Page	Image	Prompt
Cover	1	a dramatically lit brightly colored detailed painting of 20 robots and flowers with a rainbow background, digital art
Cover	2	a painting by Raphael of a robot head with flowers growing out of the top
Cover	3	a painting by Syd Mead of a bipedal robot with flowers growing out of the top of its head
Cover	4	a dramatically lit brightly colored detailed painting of a robot artist painting a picture of the ocean
Cover	5	a painting by Ralph McQuarrie of floating molecules and a robot artist holding an icosahedron with stars, clouds, and rainbows in the background
Title Page		a brightly colored painting of 20 robots and flowers with a rainbow background, digital art
001	1	A watercolor of a silver robot head with colorful flowers growing out of the top on a colorful smooth gradient background
001	2	A watercolor of a robot head with colorful flowers growing out of the top on a colorful smooth gradient background
001	3	A watercolor of a silver robot head with colorful flowers growing out of the top on a colorful smooth gradient background
001	4	A watercolor of a silver robot head with colorful flowers growing out of the top on a colorful smooth gradient background
001	5	A watercolor of a translucent robot head with colorful flowers growing out of the top on a colorful smooth gradient background
001	6	A watercolor of a translucent robot head with colorful flowers growing out of the top on a colorful smooth gradient background
002	1	An impressionist oil painting of a robot with colorful flowers growing out of the top of its head
002	2	An impressionist oil painting of a robot with colorful flowers growing out of the top of its head
002	3	An impressionist oil painting of a robot with colorful flowers growing out of the top of its head
002	4	An brightly colored impressionist oil painting of a robot with colorful flowers growing out of the top of its head
002	5	An brightly colored impressionist oil painting of a robot with colorful flowers growing out of the top of its head
002	6	An brightly colored impressionist oil painting of a robot with colorful flowers growing out of the top of its head
003		
004	1	a pointillism painting of a happy robot with flowers growing out of the top of its head
